### REPORT

OF THE

### GOVERNOR AND COMMITTEE

OF THE

### HUDSON'S BAY COMPANY,

TO BE

LAID BEFORE THE SHAREHOLDERS

ON TUESDAY, JUNE 26TH, 1877.

LONDON:

PRINTERS: SIR JOSEPH CAUSTON AND SONS, 47, EASTCHEAP, E.C., & SOUTHWARK ST., S.E.

1877.

### DIRECTORS

### Gobernor,

### THE RIGHT HONORABLE GEORGE J. GOSCHEN, M.P.

Deputy-Gobernor.

### EDEN COLVILE, ESQUIRE.

### Committee.

GEORGE LYALL, Esquire.
RICHARD POTTER, Esquire.
EDWARD WILLIAM TERRICK HAMILTON, Esquire.
THOMAS HOLDSWORTH NEWMAN, Esquire.
Sir John Rose, Bart., K.C.M.G.
FRANCIS PEEK, Esquire.
MONTAGU C. WILKINSON, Esquire.

A GENERAL COURT of the Governor and Company of Adventurers of England trading into Hudson's Bay will be held at the City Terminus Hotel, Cannon Street, on Tuesday, the 26th instant, at Two o'clock, p.m., when a Report from the Governor and Committee will be laid before the Shareholders.

The Transfer Books of the Company will be closed on the 16th and re-opened on the 27th instant.

> By order of the Governor, Deputy-Governor, and Committee of the said Company.

> > W. ARMIT,

Secretary.

HUDSON'S BAY HOUSE,

London, June 5th, 1877.

### REPORT.

It is now the duty of the Governor and Committee to lay before the Proprietors the Annual Accounts, showing the results of Outfit 1875, and the financial position of the Company on the 31st May, 1877.

In presenting these Accounts, it is necessary to remind the Sharcholders that in November last, special attention was drawn to the serious effect produced on the Fur market by the continued depression in the state of Trade, both at home and abroad, and to the fact that, being unable to form any satisfactory opinion as to the probable result of the Spring Sales, the Committee did not feel themselves justified in recommending the payment of an interim Dividend, as had been customary in previous years.

The Committee have now to report, with much regret, that the apprehensions entertained in the Autumn of last year have unfortunately been fully justified, and the result of the Fur Sales has indeed been more disappointing than was anticipated.

The great fall in prices which took place in 1876 was followed by a still more general and serious decline at the Spring Sales of the present year, when Furs of all descriptions,

fine and common, were sold at an average of about 30 per cent. less than even the reduced values of last year.

This further fall, on an almost unprecedented scale, is due to causes entirely beyond control, and to circumstances which have been more or less felt in all commercial undertakings.

It should further be borne in mind that the operations of the Company are carried on in a distant country, where as a rule, the means of communication are slow and difficult, and where a fall in the London Fur Market remains unknown to the Officers of the Company in the remoter districts, even when they are making arrangements for the purchase and barter of Furs which form the returns of the subsequent year.

The Committee have to call the attention of the Proprietors to the fact that the amount received by the Company, as the proceeds of their Fur Sales during the last season is £66,000 under that of the previous year; while the falling off from the average amount of the sales of the last ten years is no less than £85,000.

The Committee desire to state that it was after full consideration that the Furs were sold with the view to their distribution into use, in preference to the alternative course of holding and offering them for sale at a future time, when they would have come upon the market in addition to the Returns, which arrive with regularity from the various districts in which the Company's trade is carried on.

The total quantities of Furs received as the result of Outfit 1875, exhibited a falling off as compared with those of the previous Outfit. It is however satisfactory to find that, taking a period of years, there is no appreciable diminution in the quantities imported by the Company, notwithstanding very great fluctuations in the supplies of Furs from the various districts. Increased supplies of Beaver, and occasionally of some of the other description of Furs, have hitherto counterbalanced the deficiency in Marten.

The result of the accounts of Outfit 1875 has been affected, not only by the depreciated prices at which the Returns have been sold, but by depression in all branches of the Company's general business. It has also to be observed that in consequence of the dull state of trade in North America during the past year, greater reductions have been made in the valuations of the goods on hand, outstanding debts, &c., than in former years.

The Governor and Committee deeply regret that for Outfit 1875, there are no profits applicable to the Officers, under the Deed Poll, by way of remuneration for their arduous labours.

The Committee further regret that the final result of the Company's business for the year shows a loss of £2,911 12s. 3d., as set forth in Profit and Loss Account, under which circumstances they are unable to recommend the payment of any Dividend to the Shareholders.

The balance at the credit of Profit and Loss Account

proposed to be carried forward, amounts to £39,212 3s. 8d., as against £42,123 15s. 11d., carried forward last year.

It will be observed that the amount invested in the Fur trade is £978,423 3s. 9d., exclusive of goods in course of shipment, the payments for which are about to become due. Further liabilities of considerable amount in respect of import duties, transport, and other charges incidental to the business, are also payable at an early date.

These facts are referred to as affecting the available funds at the disposal of the Company in London, and the question alluded to in the last Report of raising additional capital, or of restricting the operations abroad by closing some of the stations which have hitherto been occupied by the Company.

The Governor and Committee have to report that they have recently had the opportunity of conferring with the Company's Chief Commissioner, who visited London for that purpose, and that, in preference to raising additional capital, they have arrived at the conclusion that it is expedient to withdraw from several posts, which of late years have proved to be unproductive, and gradually to reduce the capital employed at some minor stations and sections of the country, which afford but little protection and assistance to the interior districts where the great bulk of the Fur trade is carried on. Committee do not doubt that the changes indicated will be effected carefully and judiciously, with due consideration for the whole position of the Company as regards the Trade, and the prospect of a return to such a degree of prosperity as it has hitherto enjoyed.

Arrangements are now being made with the view of placing the steel steamer sent out last year on the upper waters of the Saskatchewan River, and of utilizing her services in connection with the steamer "Northcote," for the conveyance of the supplies of goods and the Returns of the Northern Districts.

The steamer "Colvile" will be employed as formerly, plying on Lake Winnipeg between Red River and the mouth of the Saskatchewan, from which point the work is intended to be performed by the steamers above named.

The amount at the credit of the Company's Marine Insurance Fund is now £50,486 0s. 11d. as compared with £46,357 13s. 3d. in June last. Premiums to the extent of £2,907 8s. 4d. have been earned during the year, while the account has been charged with its proportion of the loss per schooner "Walrus," on the coast of Labrador, as explained in November last.

A statement of the sales of lots of land at Fort Garry, prepared in the form already presented, will be found in the appendix to this Report. Notwithstanding the urgent endeavours which have been made with the view of collecting the Instalments and Interest in arrear, the amount outstanding, according to the latest advices is \$33,441 (£6,788). No title, however, is given for lots of land until the purchase price is fully paid.

The Land Account for the year ending the 31st May, 1876, is also submitted, showing a Balance of £6,485 4s. to be carried forward, after deducting the disbursements for taxes and other items, the details of which are duly stated.

The Committee are unable to report any further sales of land at Fort Garry, where, as in other parts of the territory, the general stagnation in trade prevailing throughout North America has been more or less felt. The fact, also, that the Province of Manitoba is still unconnected by railway communication with Canada and the States, must be borne in mind in relation to the development and settlement of the Territory, with which the Company's interests are so closely connected.

Large sums of money have been expended by Canada in prosecuting the survey of the proposed line of the Canadian Pacific Railway west of Lake Winnipeg, and it is anticipated that the Government will soon be in a position to invite Tenders for the work. Rapid progress is being made in the actual construction of the section between Lake Superior and Manitoba.

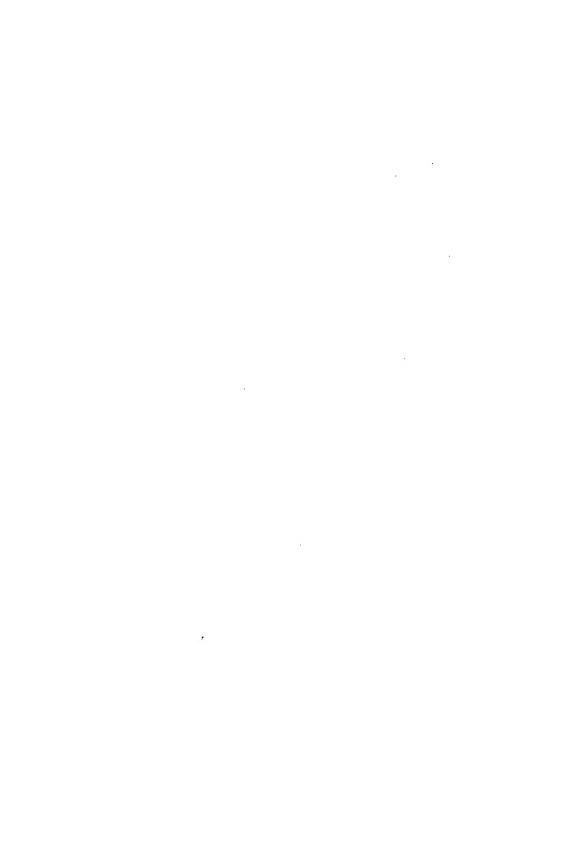

The Committee are glad to be able to report that by way of part settlement of a disputed claim of many years' standing, the Company's Land Commissioner has succeeded in obtaining Patents for land at Fort William, near the terminus of this section of the Railway.

On behalf of the Committee,

GEORGE J. GOSCHEN,

Governor.

Hudson's Bay House, London, June 8th, 1877.
